Climate Station

Data Provider credential creation

Version 1.4.0

August 2025

Abstract / Résumé
This document lists all the products available on Climate Station (or C-Station)

	Name	Position
Prepared by	Marco Clerici	JRC-EC responsible for ClimSA
Contributions/Reviews by	Jurriaan Van't Klooster	IT-GIS Specialist
	Vijay Charan Venkatachalam	IT-GIS Specialist

Version history	Details	Date
1.2.1	Initial Release	February 2024
1.3.0	Copernicus Global land credentials removal	June 2024
1.3.1	New CDS and ADS credentials	September 2024
1.3.2	CDS and ADS redirection to new website	March 2025
1.4.0	New data provider credentials	August 2025

Contents

Introduction	5
1. Procedure to create credentials	6
1.1 NASA Earth Data	6
1.1.1 LANCE Near Real Time(NRT) Credentials using Username, password & Token	7
1.2 Copernicus Climate Change Service - Climate Data Store	8
1.3 Copernicus Atmosphere Monitoring Service – Atmosphere Data Store	11
1.4 Copernicus Data Space Ecosystem	12
1.5 Copernicus Marine Data Store	14
2. Data Provider	16
2.1 Data providers with credentials	16
2.2 Data providers without credentials	17
3. Credentials in ClimSA station	18

ACRONYMS and DEFINITIONS

ADS	Atmospheric Data Store
CDS	Climate Data Store
CLMS	Copernicus Land Monitoring Service
CS	Climate Station/ ClimSA Station
USGS	United States Geological Survey
LANCE	Land, Atmosphere Near-real-time Capability for EOS
HTTPS	Hypertext Transfer Protocol Secure
API	Application Programming Interface
MODIS	Moderate Resolution Imaging Spectroradiometer
MODAPS	MODIS Adaptive Processing System
FIRMS	Fire Information for Resource Management System
JRC	Joint Research Centre
GIS	Geographical Information System

INTRODUCTION

This document explains the procedure to create the credentials in the data provider website and approve the terms & condition then use those credentials either username/password or API key in the ClimSA station.

1. PROCEDURE TO CREATE CREDENTIALS

1.1 NASA EARTH DATA

- Go to the NASA Earth Data website <https://urs.earthdata.nasa.gov/users/new> and fill the registration form ([More details](#)). Please also check “Yes, I'm interested in Meris and ESA Sentinel-3 Data.”
- After registering and login, go to your profile <https://urs.earthdata.nasa.gov/profile> and select “Applications” → Authorized Apps

- Check if you credentials are authorized with the following Apps

Approved Applications

Applications that use your Earthdata Login profile for authentication.

Earthdata Feedback Module	
Earthdata Code Collaborative	
Earthdata Website	
OB.DAAC User Support Services	
CMR SSO APP for EDL in PROD	
NRT3	
Metadata Management Tool	
OB.DAAC appkey	

[APPROVE MORE APPLICATIONS](#)

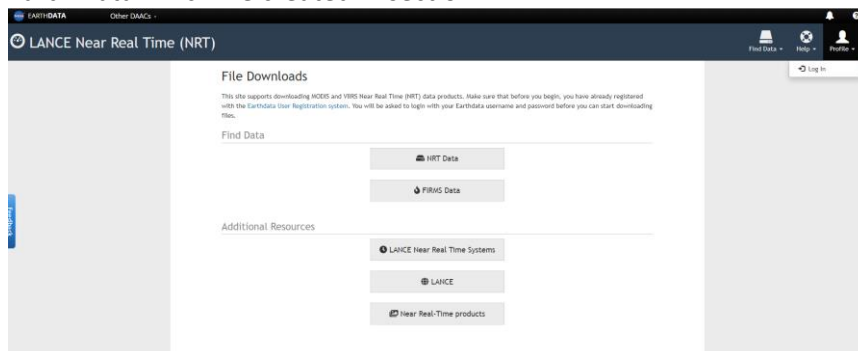

- If something is not present in your credentials, then click on “Approve More Application” and approve the same.
- Now use the username and password directly in “Data Provider Credential” dialog box

Provider	User name	Password	HTTP parameter
Copernicus S3 from Earth Data - S3NASA		[API Key]	Not needed
Earth Data USGS - NASA	[username]	[password]	Not needed
LANCE Near Real Time (NRT) - LANCE	[username]	[password]	Authorization: Bearer
Hydro Web - HYDROWEB	[username]	[password]	Not needed
Copernicus Global Land - CGLS	[username]	[password]	Not needed
Climate Data Store - CDS	[UID]	[API Key]	Not needed
Atmospheric Data Store - ADS	[UID]	[API Key]	Not needed

[Save](#)

1.1.1 LANCE Near Real Time(NRT) Credentials using Username, password & Token

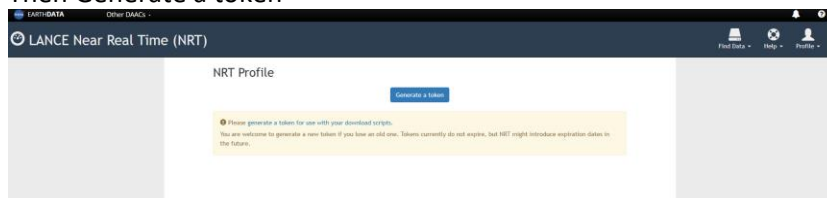

- Go to <https://nrt3.modaps.eosdis.nasa.gov/> and Login. It uses the same credentials as Earth Data which we created in section 2.2

- Once login, click on the “Profile” and select “Download Tokens”

- Then Generate a token

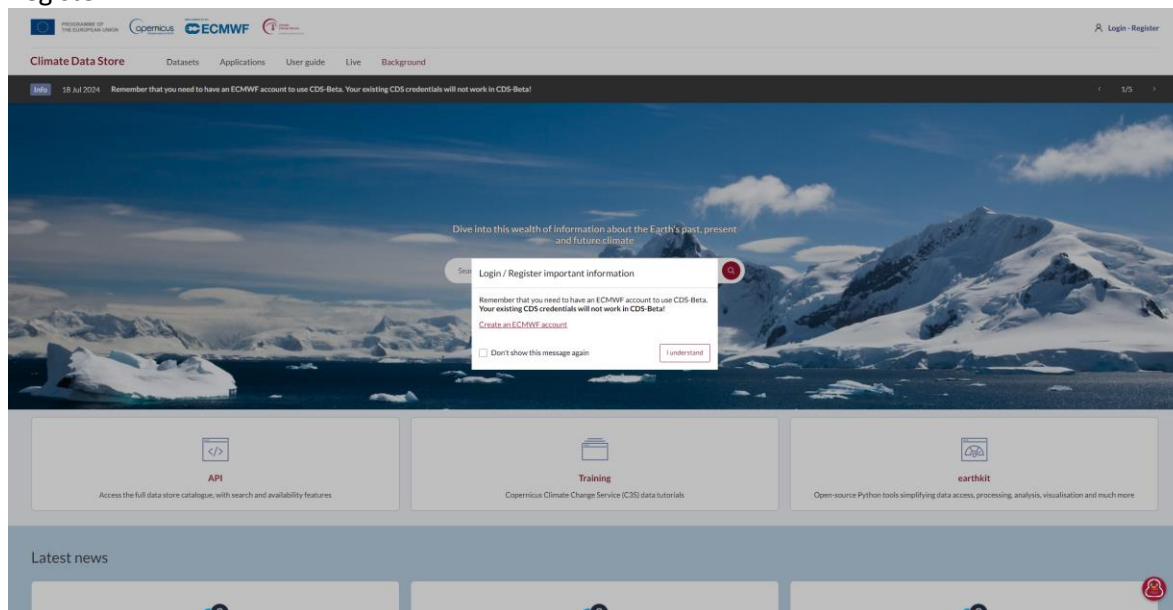

- Once generated then copy the credentials to “Data Provider Credential” dialog box under portfolio of ClimSA station.
- Enter username and password created from section 2.2. Also make sure to copy the token to “HTTP parameter” like Authorization: Bearer <token>
- Important Note: The generated token has the expiry date, so keep track to regenerate and update it**

Data Provider credentials			
Provider	User name	Password	HTTP parameter
Copernicus S3 from Earth Data - S3NASA Register here		[API Key]	Not needed
Earth Data USGS - NASA Register here	[username]	[password]	Not needed
LANCE Near Real Time (NRT) - LANCE Register here	[username]	[password]	Authorization: Bearer
Hydro Web - HYDROWEB Register here	[username]	[password]	Not needed
Copernicus Global Land - CGLS Register here	[username]	[password]	Not needed
Climate Data Store - CDS Register here	[UID]	[API Key]	Not needed
Atmospheric Data Store - ADS Register here	[UID]	[API Key]	Not needed

Save

1.2 COPERNICUS CLIMATE CHANGE SERVICE - CLIMATE DATA STORE

- Open the new CDS-Beta website <https://cds.climate.copernicus.eu/> Click on the “Login-Register”

- The old CDS credentials will not work in CDS-Beta! Therefore, you have to create an ECMWF account by clicking on “Create an ECMWF account” or “Understand” so that you are redirected to ECMWF page where you can create a new account.

- Once account is created and logged in, go back to CDS-Beta website(Sometimes it is automatically redirected) you will notice you are already logged in to CDS-Beta and you will notice the popup to fill the Country, Affiliation, Thematic Activities, Sector.
- **Most important is to “Accept Terms & Conditions” and click on “Activate your profile”**

Details

⚠ Please, complete the form by entering all the mandatory fields

Country	Country
Affiliation	Affiliation
Organisation - Optional	Your organisation name
Thematic activities	Thematic activities
Activity sectors	Activity sectors

Accept Terms & Conditions

⚠ You must accept the terms & conditions to activate your profile.

☐ [Data protection and privacy statement](#)

☐ [Terms of use of the CEMS Early Warning Data Store](#)

☐ [Terms of use of the Copernicus Climate Data Store](#)

Please provide all mandatory information.

- Click on your “Username” in the right top corner
- In the User Profile page scroll down to check for User ID and Personal Access Token

① **User ID:** When reaching out to ECMWF customer support, kindly include your User ID (distinct from your username) to ensure a more expedient service.

User ID 

Personal Access Token

Data download requests can be sent programmatically via our API. However, a Personal Access Token must be provided.

Personal Access Token 

- UID is the username and Personal Access Token is the password which you have to input in the ClimSA station datasource
- Now go to the dataset website [Seasonal forecast monthly statistics on single levels \(copernicus.eu\)](https://seasonal-forecast-monthly-statistics-on-single-levels.copernicus.eu) and choose Download tab and scroll to the end
- You will notice “Terms of use” where you can accept the license to use Copernicus Products & Additional license to use non-European contributions.

Terms of use

[Additional licence to use non European contributions](#)
You must accept the terms before submitting this request.

[Accept terms](#)

[Licence to use Copernicus Products](#)
You must accept the terms before submitting this request.

[Accept terms](#)

API request

Please go to the [documentation page](#) for information as to how to use the CDS API.

`</>` Show API request code

- After accepting the license, copy the credentials to “Data Provider Credential” dialog box under portfolio of ClimSA station.
- Copy the UID and Personal Access Token here, not your username or password

Data Provider credentials			
Provider	User name	Password	HTTP parameter
Copernicus S3 from Earth Data - S3NASA Register here		[API Key]	Not needed
Earth Data USGS - NASA Register here	[username]	[password]	Not needed
LANCE Near Real Time (NRT) - LANCE Register here	[username]	[password]	Authorization: Bearer
Hydro Web - HYDROWEB Register here	[username]	[password]	Not needed
Copernicus Global Land - CGLS Register here	[username]	[password]	Not needed
Climate Data Store - CDS Register here	[UID]	[API Key]	Not needed
Atmospheric Data Store - ADS Register here	[UID]	[API Key]	Not needed

[Save](#)

1.3 COPERNICUS ATMOSPHERE MONITORING SERVICE – ATMOSPHERE DATA STORE

- Open the ADS website <https://ads.atmosphere.copernicus.eu/>
- Click on the “Login/Register” & Login to ECMWF account.

- Accept the general Terms & Conditions as in CDS

Accept Terms & Conditions

✓ [Data protection and privacy statement](#)

✓ [Terms of use of the Copernicus Atmosphere Data Store](#)

- Go to one dataset website [CAMS global reanalysis \(EAC4\) \(copernicus.eu\)](https://ads.atmosphere.copernicus.eu/dataset/CAMS_global_reanalysis_(EAC4)) and verify if you accepted the license in bottom of the page.
- Click on your “Username” in the right top corner of the page
- In the User Profile page scroll down to check for User ID and Personal Access Token

❗ User ID: When reaching out to ECMWF customer support, kindly include your User ID (distinct from your username) to ensure a more expedient service.

User ID 

Personal Access Token

Data download requests can be sent programmatically via our API. However, a Personal Access Token must be provided.

Personal Access Token 

- After accepting the license, copy the credentials to “Data Provider Credential” dialog box under portfolio of ClimSA station.
- Copy the UID and Personal Access Token here, not your username or password

Data Provider credentials			
Provider	User name	Password	HTTP parameter
Copernicus S3 from Earth Data - S3NASA Register here		[API Key]	Not needed
Earth Data USGS - NASA Register here	[username]	[password]	Not needed
LANCE Near Real Time (NRT) - LANCE Register here	[username]	[password]	Authorization: Bearer
Hydro Web - HYDROWEB Register here	[username]	[password]	Not needed
Copernicus Global Land - CGLS Register here	[username]	[password]	Not needed
Climate Data Store - CDS Register here	[UID]	[API Key]	Not needed
Atmospheric Data Store - ADS Register here	[UID]	[API Key]	Not needed

[Save](#)

1.4 COPERNICUS DATA SPACE ECOSYSTEM

- Open CDSE website and click on register if you don't have the credentials
<https://identity.dataspace.copernicus.eu/auth/realms/CDSE/account/#/personal-info>

CDSE

☒ Accept [terms and conditions](#) and [privacy policy](#)

- Make sure you also select the User Category as Copernicus services and Project Name as CLMS.

☒ Accept [terms and conditions](#) and [privacy policy](#)

☒ Give the permission to contact you at the email address provided during the registration for the purpose of possible user surveys

☒ I am also interested in accessing Copernicus Contributing Missions data
 The approval of your registration request depends on adherence to the [ESA-User license for the use of CCM data](#) Acceptance of the Copernicus Contributing Mission Data Access license framework does not imply the granting of access rights to all data collections. Licenses pertaining to individual collections shall apply only to the extent that ESA has expressly granted the User access rights with respect to the specific collections in question. Registration under the Public user category is automatically approved.
 More information on user categories can be found at [Copernicus Contributing Missions User Categories](#)

3. CREDENTIALS IN CLIMSA STATION

Please fill the credentials below and take a print out of it. Provide this print out to the administrator or in charge of the ClimSA station. In case of reinstallation, credentials saved in the DB will be lost, so that they can copy, paste the credentials back to “Data Provider Credential” dialog box under portfolio of ClimSA station.

Data Provider	Username	Password	HTTP Parameter
Earthdata USGS	<username>	<password>	Not needed
CMEMS	<username>	<password>	Not needed
LANCE Near Real Time (NRT)	<username>	<password>	Authorization: Bearer <Token>
Copernicus Global Land	<username>	<password>	Not needed
CDSE	<email>	<password>	Not needed
Climate Data Store	<UID>	<API Key>	Not needed
Atmospheric Data Store	<UID>	<API Key>	Not needed
